Sharqia, Egypt | you3853ssef.ahmed@gemail.com | +201554976407 | https://youssef777814.github.io/portfolio/ | linkedin.com/in/youssef-ahmed | github.com/yousuf ahmed

Professional Summary

Full stack web developer with 4+ years of freelance experience building fast, responsive websites and web apps with the MERN stack (MongoDB, Express, React, Node.js). I have delivered 10+ projects for 20+ clients, from education and healthcare to small businesses, working directly with clients from brief to launch. I am looking for a local or remote role where I can ship clean, maintainable code and keep growing as an engineer.

Technical Skills

Front end: HTML5, CSS3 (Flexbox, Grid, animations), JavaScript (ES6+), React, responsive and mobile-first design

Back end: Node.js, Express.js, REST APIs, authentication and security basics

Database: MongoDB

Tools: Git and GitHub, Figma (design-first workflow), VS Code, browser DevTools, deployment and hosting
